Used Oil Block Grant for FY 2003-2004 (9th Cycle)

Introduction to Used Oil Recycling Program

OUR MISSION

Our mission is to reduce the generation and improve the management of solid waste in California to conserve resources, develop sustainable recycling markets, and protect public health and safety, and the environment. We do this in partnership with public agencies, industry, business, and the public we serve.

USED OIL PROGRAM

The Used Oil Recycling Program develops and promotes alternatives to the illegal disposal of used oil by establishing a statewide network of collection opportunities and undertaking outreach efforts to inform and motivate the public to recycle used oil.

Major goals of the program include the following:

- Provide the public with convenient collection locations for used oil.
- Increase the demand for recycled oil products.
- Develop methods to motivate the public to recycle their used oil.
- Provide grants to local governments and nonprofit organizations.

HOW TO REACH US

California Integrated Waste Management Board
Special Waste Division
Used Oil Grant Program, MS #21
1001 "I" Street
PO Box 4025
Sacramento, CA 95812-4025
(916) 341-6457

Grant Manager contact information is available at:
www.ciwmb.ca.gov/HHW/Grants/Contacts.htm

FOR MORE INFORMATION

If you would like more information about the California Integrated Waste Management Board (CIWMB) or the Used Oil Program go to the CIWMB'S website at:

www.ciwmb.ca.gov.

The Department of Toxic Substance Control (DTSC), one of our sister organizations under the California Environmental Protection Agency (Cal/EPA), is responsible for regulating hazardous waste facilities and overseeing the cleanup of hazardous waste sites in California.

Through its inspection, compliance and corrective action programs, DTSC ensures that state and federal requirements for managing hazardous waste are implemented. Contact the nearest DTSC field office duty officer for more information on hazardous waste management practices including household hazardous waste and used oil management regulations in California.

Department of Toxic Substances Control
